AF 1 Marine Aquaculture

To support the sustainable development of marine aquaculture and fishing industries, so as to maximise their contribution to jobs and growth in coastal communities where it can be demonstrated that the development will not have significant adverse effects on the environment. **Positive consideration will be given to the provision and allocation of aquaculture and community-owned renewable permissions and infrastructure for the placement of beyond the foreshore aquatic installations at? side of horizon developments such as offshore wind,solar,and other beyond foreshore installations for existing licenced and other community owned entities with county.**
