To whom it concerns, I wish to make a submission to the 2022-2028 Galway county development plan. The submission I wish to make is to change the zoning of one my plots from agricultural back to residential (Folio Number GY35145). My children are now of the age where they are looking to build the future homes on the family farm and this is why I would like to have it rezoned to residential.

Please find attached a map with the proposed area outlined. If you need any more information from please feel free to ask.

Kindest Regards,

Martin A Coyne,
