I live directly opposite the proposed new graveyard.

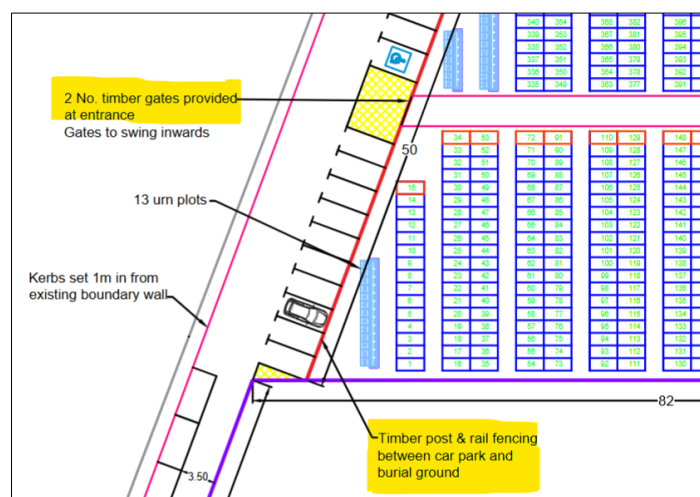

My main request is that the entrance to the graveyard be on the main road and that the bóithrín to the wood remains untouched.

I wish to highlight several issues with the proposed graveyard design that are not practical or logical,

1. I am in total agreement with other submissions about the parking, access & traffic issues they have highlighted.
2. The proposal to tear down beautiful trees, hedges and stone walls and replace them with concrete posts and mesh fencing will destroy the character of the bóithrín as a walking amenity. The removal of the hill is also totally unnecessary.

3. It is proposed to put a timber post & rail fence and timber gates at the entrance to the graveyard. Even treated timber will rot eventually, become discoloured and unsightly over time. The graveyard should be fronted by a stone wall like anyone who builds a house is required to do.

4. Please provide a tap for water in the new graveyard.

Yours Sincerely,

Avril Blade
