Re: Part VIII Planning Application for proposed energy efficiency upgrade works to the Ballinasloe Leisure Centre, Sarsfield Road, Cleaghmore, Ballinasloe, Co. Galway (H53 K718).

A Chara,

The Part VIII planning application is in relation to proposed energy efficiency upgrade works at the Ballinasloe Leisure Centre. The external works associated with the proposed new energy efficiency upgrade works broadly include the following elements.

- Creating a secured compound for the mechanical plant beside the existing plant room to the rear of the Ballinasloe Leisure Centre building (North side of structure).
- Install Air Sourced Heat Pump
- Install Thermal Store (Hot water storage) to allow for low temperature hot water storage.
- Install ancillary mechanical equipment for the transportation of water.

In support of the planning application for the above mentioned works we have enclosed the following drawings and documentation.

3 No. copies of the following architectural drawings of proposed new compound for new thermal storage tank, heat pump, mechanical and electrical equipment, and other ancillary works:

- Site Location Map scale 1:2500
- Site Layout Plan scale 1:500
- Site Layout Plan scale 1:100
- Elevation Section A-A (south viewing) scale 1:100
- Elevation Section B-B (south viewing) scale 1:100
- Elevation Section C-C (west viewing) scale 1:100
- ❖ 3 No. copies of the project Executive Summary report.
- ❖ 3 No. copies of the Acoustics report prepared by Dalton Acoustics Ltd.

Kind regards,

Kevin Finn
